For more than two decades, Content Enablers has been the recognized global leader in web-based international trade compliance training for Fortune 500 firms primarily in the Defense, Aerospace, Technology, and Medical/Biotech/Pharma arenas. CE training provides complex regulatory content in a clear, scenario-based model on the trade regulations of the U.S. and more than 25 other countries. All training includes regulation updates for a full year, so you can stay confident in the crucial area of trade compliance.

Export, Import, and Sanctions Compliance Training Tailored to Your Learners

When it comes to trade compliance training, one size absolutely does not fit all. CE's expansive training library is differentiated for your organization and learners by:

Jurisdiction

Content Enablers offers training on U.S. trade compliance laws and regulations, including the ITAR, the EAR, import regulations, and sanctions administered by OFAC, as well as the import, export, and sanctions regulations of more than 25 additional jurisdictions.

Employee Job Function

Incorporating function-specific training into a compliance program reduces penalty risk, increases employee retention, and establishes a stronger compliance culture. Content Enablers designed its compliance training with this function-specific focus in mind, with training for:

Trade Compliance Practitioners – Trade Compliance Managers, Empowered Officials, or any other employees responsible for establishing, implementing, or managing trade compliance programs within their organization

Key Role Professionals – Individuals that work outside the compliance department but who are still responsible for routine compliance tasks as part of their job, such as staff in Human Resources, Engineering, Research, IT, Marketing, and many other functions

Industry

Differentiated training has been developed for these major industry sectors, incorporating products, services, and scenarios specific to their learners:

- Aerospace and Defense
- Medical, Biotech, and Pharmaceutical
- Technology

The CE Model

Customization, Seamless Delivery, and Certification

- On-demand individual training or company-wide personalized learning plans on our LMS or yours
- Embed your company's messaging, resources, videos, and legacy training.
- Assess your learners' progress with a wide variety of knowledge checks and quizzes.
- Certification from the ***Schar School of Policy and Government*** at George Mason University in the U.S. on select courses
- Certification and Continuing Professional Development (CPD) points from the ***Institute of Export and International Trade*** (IOE&IT) in the UK on select courses

Content Enablers Training Content is organized by:

- ▶ **The Export Collection**
- ▶ **The Import and Customs Collection**
- ▶ **The Sanctions, Security, and Anti-Corruption Collection**
- ▶ **The Role- and Industry-Specific Training Collection**

The Export Collection

CE offers on-demand courses at both the awareness and export practitioner level covering the export controls of the United States — the Export Administration Regulations (EAR) and the International Traffic in Arms Regulations (ITAR) — as well as EU, UK, and other country-specific export controls.

Trade Compliance Overview awareness courses are differentiated by employee role and major industry sector.

CE's U.S. Export Compliance Certification Series for Practitioners is offered for both U.S. and non-U.S. organizations.

General Trade Compliance Overviews (Global and U.S.)

- Trade Compliance (Global 13-Minute Awareness)
- Trade Compliance Overview: Global (Multiple Language Options)
- Trade Compliance Overview: U.S.
- Trade Compliance Overview: U.S. Dual-Use Controls

Non-U.S. Trade Compliance Overviews

- Trade Compliance Overview: Canada
- Trade Compliance Overview: France
- Trade Compliance Overview: Germany
- Trade Compliance Overview: Hong Kong SAR
- Trade Compliance Overview: Mexico
- Trade Compliance Overview: PRC
- Trade Compliance Overview: Switzerland
- Trade Compliance Overview: UK Dual-Use Controls
- Trade Compliance Overview: Uruguay

Topical Export Controls Courses

- Authorization Management (U.S.)
- Authorizations (U.S.)
- Export Clearance (U.S.)
- Export-Controlled Technical Data and Technology Management
- Foundations of U.S. Export Compliance
- International Travel
- Jurisdiction and Classification (U.S.)
- Regulated Activities (U.S.)
- Screening
- Technology Control Plans
- Technology Control Plans: International
- Trade Compliance Programs (U.S.)
- U.S. Export Controls: International
- U.S. Export Documents

- **BUNDLE of 4 COURSES:** U.S. Export Compliance Certification Series for Non-U.S. Practitioners

Advanced Export Controls

- U.S. Export Controls: Advanced EAR
- U.S. Export Controls: Advanced ITAR

Movement of Goods Export Bundles

- **BUNDLE of 2 COURSES:** Incoterms 2020 + U.S. Export Documents
- **BUNDLE of 3 COURSES:** Incoterms 2020 + U.S. Export Documents + U.S. Foreign Trade Regulations
- **BUNDLE of 4 COURSES:** Incoterms 2020 + U.S. Export Documents + U.S. Foreign Trade Regulations + Export Clearance

The Import and Customs Collection

The Import and Customs Collection is an engaging set of microlearning elements designed to provide an understanding of import-related issues for those whose job responsibilities involve or impact the import of items.

Content sets include courses on U.S. import controls and other country-specific import controls, as well as training from a global, non-jurisdictional perspective. Course depth ranges from awareness-level courses for those working in positions and functions outside of trade compliance — such as logistics/shipping, procurement, and contract administration — to a practitioner-level course covering Global Import Valuation.

Global Import and Customs

- Global Customs Valuation for Import Practitioners
- Global Import Controls Overview (Multiple Language Options)
- Incoterms 2020

U.S. Import and Customs

- Customs Trade Partnership Against Terrorism (CTPAT)
- Import Controls Overview: United States
- U.S. Customs Compliance: Defense Version
- U.S. Customs Compliance
- U.S. Import Valuation

Non-U.S. Import and Customs

- Import Controls Overview: Canada
- Import Controls Overview: France
- Import Controls Overview: Germany
- Import Controls Overview: Hong Kong SAR
- Import Controls Overview: Mexico
- Import Controls Overview: PRC
- Import Controls Overview: Switzerland
- Import Controls Overview: Uruguay

Movement of Goods Import Bundles

- **BUNDLE of 2 COURSES:** Incoterms 2020 + U.S. Customs Compliance
- **BUNDLE of 3 COURSES:** Incoterms 2020 + U.S. Customs Compliance + CTPAT

The Sanctions, Security, and Anti-Corruption Collection

The Sanctions, Security, and Anti-Corruption Collection is an engaging set of courses designed to provide an understanding of these trade-related issues with emphasis on keeping information safe and identifying what is prohibited by the various sanctions and anti-corruption regulations. Courses offer practical advice on what to do when faced with a situation that could potentially violate the law.

Antiboycott

- Antiboycott Rules Compliance (U.S.)

Anti-Corruption

- Foreign Corrupt Practices Act
- The UK Bribery Act 2010

Sanctions and Embargoes

- U.S. Sanctions and Embargoes

Security

- Cybersecurity
- National Industrial Security Program Operating Manual (NISPOM) Training
- Security Clearance Refresher Training
- Special Security Agreement (SSA)

The Role-Specific and Industry-Specific Trade Compliance Training Collection

Covering U.S., UK, and global export, sanctions, and anti-corruption controls, CE's awareness-level Trade Compliance Overview courses give your employees the knowledge that they require to become assets in your company's trade compliance efforts. Each course offers engaging, role-specific scenarios that illustrate how key training concepts can impact day-to-day situations. Learners are enabled to recognize situations that could give rise to the risk of a trade compliance violation and know how to respond in accordance with applicable laws and company policies.

Additional differentiation for the major industry segments of Aerospace and Defense, Medical, and Technology presents a training experience for learners that provides relevance and enables understanding and appropriate action for each learner role.
